

***Being Green starts with the little things.
Like turning the light off when you leave the room.***

Unfortunately, people forget!

Fleet Online never forgets to turn off your forklifts.

***Fitting one forklift with Fleet Online saves the CO²
equivalent of 25 mature trees every day.***

From \$1 per day, fit Fleet Online, help the planet.

FLEETONLINE. From Reports to Results.

From \$1 per day Fleet Online can give you:

- Fuel and CO2 emission reductions through intelligent 'idle shutdown' of internal combustion trucks.
- Online equipment asset register with daily condition and service history reports
- Online paperless OSHA equipment checklists
- 'Just-In-Time' preventative maintenance scheduling
- Operator identification with training reminders
- Equipment damage reports with automatic emails

"Online access to your equipment is part of today's approach to fleet efficiency, safety management and carbon footprint reduction."

FLEETONLINE. From Reports to Results.
